Hybrid LPV Modelling and Identification

Authors: L. Giarré, P. Falugi and R. Badalamenti
Contents

- Hybrid LPV Modelling and Identification
  
  **Authors:** L. Giarré, P. Falugi and R. Badalamenti

- Set-Membership Identification of LPV Models with Uncertain Time-Varying Parameters
  
  **Authors:** V. Cerone, D. Piga and D. Regruto
Contents

- Hybrid LPV Modelling and Identification
  
  **Authors:** L. Giarré, P. Falugi and R. Badalamenti

- Set-Membership Identification of LPV Models with Uncertain Time-Varying Parameters
  
  **Authors:** V. Cerone, D. Piga and D. Regruto

- Set Membership Identification of State-Space LPV Systems
  
  **Author:** C. Novara
Contents

- Hybrid LPV Modelling and Identification
  
  **Authors:** L. Giarré, P. Falugi and R. Badalamenti

- Set-Membership Identification of LPV Models with Uncertain Time-Varying Parameters
  
  **Authors:** V. Cerone, D. Piga and D. Regruto

- Set Membership Identification of State-Space LPV Systems
  
  **Author:** C. Novara

- Identification of Input-Output LPV Models
  
  **Authors:** V. Laurain, R. Tóth, M. Gilson and H. Garnier
Contents

- Reducing the Dimensions of Data Matrices Involved in LPV Subspace Identification Methods

Authors: V. Verdult and M. Verhaegen
Contents

- **Reducing the Dimensions of Data Matrices Involved in LPV Subspace Identification Methods**
  
  **Authors:** V. Verdult and M. Verhaegen

- **Subspace Identification of MIMO LPV Systems**
  
  **Authors:** J.W. van Wingerden and M. Verhaegen
Contents

- Reducing the Dimensions of Data Matrices Involved in LPV Subspace Identification Methods
  
  **Authors:** V. Verdult and M. Verhaegen

- Subspace Identification of MIMO LPV Systems
  
  **Authors:** J.W. van Wingerden and M. Verhaegen

- Subspace Identification of Continuous-Time State-Space LPV Models
  
  **Authors:** M. Lovera and M. Bergamasco
Contents

- Reducing the Dimensions of Data Matrices Involved in LPV Subspace Identification Methods
  
  **Authors:** V. Verdult and M. Verhaegen

- Subspace Identification of MIMO LPV Systems
  
  **Authors:** J.W. van Wingerden and M. Verhaegen

- Subspace Identification of Continuous-Time State-Space LPV Models
  
  **Authors:** M. Lovera and M. Bergamasco

- LPV Indirect Continuous-Time System Identification Through a Downsampled Subspace Approach
  
  **Authors:** P. Lopes dos Santos, J.A. Ramos, T-P Azevedo Perdicoúlis and J.L. Martins de Carvalho
Contents

- LPV Identification Using Series-Expansion Models

Authors: R. Tóth, P.S.C. Heuberger and P.M.J. Van den Hof
Contents

- *LPV Identification Using Series-Expansion Models*
  
  **Authors:** R. Tóth, P.S.C. Heuberger and P.M.J. Van den Hof

- *System Identification of Linear Parameter Varying State-Space Models*
  
  **Authors:** A. Wills and B. Ninness
Contents

- **LPV Identification Using Series-Expansion Models**
  
  **Authors:** R. Tóth, P.S.C. Heuberger and P.M.J. Van den Hof

- **System Identification of Linear Parameter Varying State-Space Models**
  
  **Authors:** A. Wills and B. Ninness

- **Piecewise Affine Identification of Interconnected Systems with LFR Structure**
  
  **Authors:** S. Paoletti and A. Garulli
Contents

- LPV Identification Using Series-Expansion Models
  Authors: R. Tóth, P.S.C. Heuberger and P.M.J. Van den Hof

- System Identification of Linear Parameter Varying State-Space Models
  Authors: A. Wills and B. Ninness

- Piecewise Affine Identification of Interconnected Systems with LFR Structure
  Authors: S. Paoletti and A. Garulli

- Identification and Model (In)validation of Switched ARX Systems: A Moment-Based Approach
  Authors: C. Feng, N. Ozay, C.M. Lagoa and M. Sznaier
